

RTD Sensor IS-PK01 Style

Features and Benefits

Poly ether ether Ketone transitions

- Crimped to sheath and filled with 150°C epoxy

Leadwire

- Silicon * Teflon

Construction

- durable sensor

Temperature rating

- -200 to 650°C (-328 to 1200°F)

High accuracy

- Dependable reading
- Class A DIN 0.00385
- Class B DIN 0.00385

Element

- 100Ω Single 3-wire
- 100Ω DUAL 6-wire

SIZE : W6 * H6 * 60L * 900L
